

Parent Flyer Instructions

CodeWizardsHQ has provided teachers with a flyer to help spread the word to families about the CodeWizardsHQ Logic Challenge. The flyer can be customized with your class code and printed or sent digitally.

- Send the flyer to parents either in print or digitally 2-3 weeks before the start of the Logic Challenge.
- You may write in your class code on printed versions or input the code into the fillable PDF form and save the file for digital distribution.
- If you plan to distribute the flyer via email, we have provided you with an email template to help explain the benefits of signing students up to participate. The PDF flyer can be sent as an attachment to that email.
