

School Newsletter Instructions

CodeWizardsHQ has provided teachers and schools with digital images and a short text description that may be included in school newsletters and announcements to help spread the word about the Logic Challenge. We recommend the following:

- Include Logic Challenge information in newsletters and announcements 2-3 weeks before the start of the competition.
- Information may be posted during the competition as well. Students may begin at any time and catch up.
- Need other image sizes? We can help with that. Just contact us at logicchallenge@codewizardshq.com and we can provide them for you.
