

School Poster Instructions

CodeWizardsHQ has provided teachers and schools with a school poster designed to inform and interest students about the Logic Challenge. A few suggestions for use:

- **Place Posters in High-Traffic Areas:** Post in places like hallways, cafeterias, libraries, and outside classrooms where students pass frequently.
- **Use Notice Boards:** Pin the poster on designated notice boards or school announcement spaces.
- **Keep Posters Neat and Consistent:** Make sure all posters are displayed neatly and consistently in multiple locations.
